Meydan Sobha unveils Mohammed Bin Rashid Al Maktoum City - District One to investors in the United Kingdom

• Event held at London's the Dorchester Hotel generates keen interest from UK and International Investors

• Exclusive Community's appeal enhanced by record-breaking marvels of neighbouring Meydan one development

London - Dubai-based developer Meydan Sobha unveiled its multi-billion dirham Mohammed Bin Rashid Al Maktoum City - District One project to the UK market this past weekend, hosting a glittering reception at London's prestigious The Dorchester Hotel.

The invitation-only event, the first in a series of private events being hosted across the UK, Europe and Asia, was attended by over 200 UK and European investors, along with visiting guests from around the world. It highlighted why District One is the most exclusive address in Dubai, and generated greater than expected sales enquires and wide interest from attendees.

The project's appeal as Dubai's most exciting residential project was significantly enhanced in light of the recently announced Meydan One leisure, commercial, and entertainment destination which will be built next to District One. The Meydan One development in Mohammed Bin Rashid Al Maktoum City is set to host the world's tallest residential tower, the largest ever sports facility, the world's longest indoor ski slope and the largest ever dancing fountain - amongst many other record-breaking amenities and attractions.

Taking centre stage at the reception, however, were The Mansions at District One, the elite section of Mohammed Bin Rashid Al Maktoum City reserved for Dubai's most affluent residents. The luxury mansions of District One will feature stunning views of Dubai's iconic skyline and will have their own 'beachfront' on what will become the world's largest Crystal Lagoon, a 7 km water body creating an idyllic manmade beach in the heart of the city surrounded by lush green landscaping.

Several signature Mansions, which range from 1,650 square metres up to 3,250 square metres, were released for sale exclusively at the event in London, with prices starting at AED50 million. The development also features other premium luxury villas within the community starting from AED15 million.

Mohammed Bin Rashid Al-Maktoum City - District One offers one of the lowest density villa developments in the heart of any international city. With a total land size of 4.3 million square metres, surrounded by over 2.5 square kilometres of glorious green natural surroundings, District One dedicates 60 per cent of its area to open spaces; with parks, lawns, green corridors, recreational parks, as well as landscaped walkways.
